D. C. CUNNINGHAM, Ed. and Prop.

DONIPHAN, MO., OCT. 29, 1915

Hon. D. N. Holliday, of Greenville, Wayne county, is being urged to become a candidate for the Democratic nomination for State Senator from this senatorial district. Mr. Holliday if he should decide to enter will make a strong race, and he has a large acquaintance in Ripley county.

Elections will be held next Tuesday in five states, Massachusetts, Maryland, New York, Pennsylvania and Kentucky. Massachusetts, Maryland and Kentucky are to elect state officers, while New York elects some congressmen to fill vacancies, and also with Pennsylvania votes on woman suffrage.

The prosecuting attorney of Cole county, Mo., in which the state capital is located, has had John P. Gordon, State Auditor, arrested for falsifying state funds, to pay his expenses from Jefferson City to Salt Lake City, Utah, to attend a convention of State Auditors, a practice which has been tolerated for many years past. While this is a questionable practice, and one that the next legislature should deal with, still the prosecution of Gordon smells very much like politics, and the St. Louis Globe-Democrat, in its last Sunday's issue, severely castigates the Cole county prosecutor, saying that it was "unwise as it is unjust," and that the Mr. Peters, the prosecutor "should use good judgment and beware even the appearance of persecution." That paper further says that no jury in the state would convict the State Auditor. Even the Globe, as much as it likes to defame Democratic state officials, could not go that Peters dose.

A Modern Mystery.

Why do so many curiously assorted couples choose the inconvenient hour of 3 a. m. in which to have their automobiles wrecked?—Chicago News.

Legend of the Phoenix.

The story of the phoenix is a common superstition in several countries. According to the ancient and best accepted legend, the world has but one phoenix. This animal, at the end of 999 years, burns itself to death in a funeral pyre of its own erection and as soon as it expires another phoenix with wings outstretched rises from the flames.

The Colds of Mankind Cured by Pinesol

Have you ever gone through a typical pine forest when you had a cold? What a vigorous impulse it sent! How you opened wide your lungs to take in those invigorating and mysterious qualities. Yes, Dr. Bell's Pine-Tar-Honey possesses those stimulating qualities and overcomes hacking coughs. The inner lining of the throat is strengthened in its attack against cold germs. Every family needs a bottle constantly at hand. 50c.

The Bitter End.

"The Bitter end" refers to the end of a ship's cable fastened to the "bitter"—a frame of two strong pieces of timber fixed perpendicularly in the fore part of the ship for the purpose of holding the cable. The other end is fastened to the anchor. When the cable is cut to "the bitter end" it is all out; the extremity has come.

A Clogged System Needs Attention

Are you bilious, dizzy and listless? Dr. King's New Life Pills taken at once relieve upon constipation and starts the bowels moving naturally and easily. Moreover it acts without griping. Neglect of a clogged system often leads to most serious complications. Painless cathartics and a body poorly functioning need immediate attention. If you wish to wake up to-morrow morning happy in mind and entirely satisfied, start your treatment to-night. 50c. a bottle.

IS EAGER TO BE A NURSE

Miss Helen Namur, a popular leader and one of the prettiest girls in her set, longs for an opportunity to aid the people of King Albert's war-torn country. Since the outbreak of the war she has worked unceasingly in the interests of Belgium, being enrolled in practically all the movements for the aid of the tiny kingdom where back in the fourteenth century her ancestors played a leading part in some of the most important and romantic historical events of the little country. They lived in the vicinity of Namur, where the greatest forts in the world were shattered by the 42-centimeter guns of the German army, and many of their descendants resided there until the outbreak of the war. Miss Namur's parents came to the United States 49 years ago and settled in New York, where she was born. Realizing the great need of workers in the stricken country where many of her relatives are fighting in the trenches, she offers to go as a war nurse or as a relief worker to aid the helpless women and children left at home to fight battles at even greater odds than those encountered by the men who held the Germans back until the French were mobilized.

"PAT-PATTER" SOME KISSER

Nieces Say Other Boys Had No Chance With Anti-Osculator in Former Days.

Huntington, W. Va.—Dr. E. W. Grover, president of the Huntington board of health, has met with an unkind setback in his campaign to do away with kissing and substitute the "pat-pat," in which one gently taps the cheeks of his beloved instead of imprinting the old-fashioned kisses on her lips.

His three nieces, Mrs. Mertie Funk, Mrs. Rome Baker, and Mrs. Mary Grover, who live in Los Angeles, have now written:

"When it comes to osculatory pursuits our uncle was a hum-dinger in bygone days. The other boys didn't have a chance with him. He was some kisser."

Doctor Grover has received hundreds of letter protesting against his "pat-pat" system. A Cleveland man termed him "a superannuated old stick."

HAS MADE 20,000,000 BUNS

Brother Williamford is Baker for University of Notre Dame for Fifteen Years.

South Bend, Ind.—Brother Williamford, who estimates that he has baked approximately 20,000,000 breakfast buns, has just completed his fifteenth year as the head of the bakery of the University of Notre Dame. He has kept careful count of the various eatables he has prepared since he began. The brother's family is about 1,500 while school is in session.

By Brother Williamford's calculations he has mixed 32,800 barrels of flour and made 643,500 five-pound loaves of bread, 18,435,000 cookies and almost 20,000,000 buns for breakfast. Pies for the school are made by the sisters at St. Mary's college.

CATS FOR FOOD IN HUNGARY

Demand Causes Jump in Price Until Maximum is Set by Authorities.

Paris.—The Figaro quotes the Budapest correspondent of the Frankfurter Zeitung as follows:

"The official organs of the central Hungarian slaughter houses states that in the Biharmester district, where all the Italian residents of Hungary are interned, a great number of cats are killed and dressed daily. The demand has been such that the price of cats rose to a prohibitive figure, hence the local authorities stepped in and fixed the maximum price at three crowns the kilo." (About 25 cents a pound.)

TELLS SEA ROMANCE

Sole Survivor Recalls Wreck of Bark Egypt.

Went Down in Gale in Bahama Sixty-Six Years Ago—Clings to Rigging for Five Days and Nights.

Blackwell, Okla.—The only survivor of the wreck of the bark Egypt 66 years ago is visiting relatives in Kay county, and celebrated the anniversary of what was known to him as the most terrible week he has spent in his eighty-nine years on this earth. Sheridan is yet a hale and hearty old "sea dog" and his tale of the adventure many years ago in which practically the whole crew of the bark were drowned and the remaining 13 come near meeting a much worse death was told by him in this fashion: "It was sixty-six years ago this summer that the old bark Egypt put out from Portland, Me., with a cargo of lumber and a few weeks later struck a real northwester while in the gulf stream near the Banks of Bahama. A happy outfit we were, all full of life. "On the evening of September 6 a storm struck us and for six hours we battled that gale in a terrific fight. Finally, however, the bark turned over. The masts and rigging were left afloat, and to these those of us that were left made. When we counted up the next day, there were thirteen of us.

"Without food, without a drop of fresh water, suffering intensely from the semitropical midsummer sun by day and from the cold at night, half-famished and nearly crazed from thirst, we clung to the rigging of that half-drowned vessel for five days and nights. "Time after time I was in the notion of letting go and ending the torture in the cool deep of the sea, but each time the love of life was too great, and I held on in the hope that some time before my mind left me, which is the usual ending of those cast out in that way, we might be rescued by a passing boat. "On the evening of the fifth day a sailing vessel bound for New York sighted us an hour after we had seen it. That was the longest hour of my life, for I was afraid that they would go right on by without seeing us. We quickly revived, but the memory of those times will be vivid always."

HAS LONELY SUPPER AT 105

Indiana Centenarian Said to Be Daughter of Franz Antoine, Napoleon's Chef.

Jeffersonville, Ind.—Mrs. Susan Quinlan, who is now one hundred and five years old, spent her birthday quietly at her home with only her son, Charles, sixty years old, a carpenter, with whom she lives, sharing the supper.

Mrs. Quinlan has been married three times. She was born in France, the daughter of Franz Antoine, who is said to have been the chef of Emperor Napoleon. She came to this country when twenty-six years old. Her last husband, who died several years ago, was Patrick Quinlan, a cafe proprietor.

GLASS EYE FOR THE BABY

Child Uses Toy Cat's Optic, Which She Thinks Looks Much Prettier.

St. Joseph, Mo.—When Mrs. E. F. Geckler, wife of a St. Joseph merchant, noticed that one of the eyes of her three-months-old baby was irritated, she took the child to a physician. He found nothing wrong with the eye.

The child continued to cry and the mother took it to an oculist, who removed a concave glass that fitted snugly over the eyeball. A three-year-old sister had taken a glass from a toy cat's eye and placed it in the baby's eye because she thought it prettier.

Clowns That are Funny.

In addition to the big circus acts with the Yankee Robinson Shows, the trained wild animal acts of the Carl Hoffman-back's Show and the thrilling feats of the cowboys and cowgirls of Texas Bills, fifty funny clowns are interspersed through the programme and really put on some stunts that are side splitters. One of the many features long to be remembered with the show is the European war number and the busting of the aeroplane. If this does not make the meanest man in this community laugh, there is not a laugh in him. Doniphan, Saturday Oct. 30.

Coughs That Are Stopped!

Careful people see that they are stopped. Dr. King's New Discovery is a remedy of tried merit. It has held its own on the market for 46 years. Youth and old age testify to its soothing and healing qualities. Pneumonia and lung troubles are often caused by delay of treatment. Dr. King's New Discovery stops those hacking coughs and relieves la grippe tendencies. Money back if it fails. 50c and \$1.00.

A. E. Richmond, wife and son, Clarence, came down from Hunter in their automobile last Tuesday evening and will again make this city their home. They intend to engage in the mercantile business in the buildings formerly occupied by Peyton Odom. They made the trip here from Hunter in a little over three hours.

Mr. Peeter Explains. "When I am downtown and see a presumably intelligent young woman making a fool of herself over a measly runt of a dog, I fret and fume all the way home," said P. G. Peeter. "Then I look in the mirror and think that, after all, she might have done worse!"—Kansas City Star.

Velvet for Cleaning.

A small piece of velvet is a fine cleaner for brass, and for polishing all vermin it is better than camels. It quickly removes the dust from woodwork, and if used to rub the stove after it has been blacked will produce a high polish. There is nothing better to dust a felt hat. Silk dresses and other silk articles should always be dusted with it, for it cleans perfectly without cutting or otherwise injuring the silk.

Novellists' Troubles.

George Meredith said that the most difficult thing to write in fiction was dialogue. But there is surely one thing at least as difficult—a thing so rarely well done that a mere reader might think it to be more difficult than dialogue—and that is the telling what happened.

Hint for Purchasers of Camels.

A good camel will travel 100 miles in a day. An ordinary camel travels only 75 miles in a day. In buying camels try to select those having both speed and endurance.

INDIANA MAN HAD A DELICATE LIVER

Made Friends Think He Would Not Live, But Black-Draught Liver Medicine Brought Him Safely Through.

Leogottee, Ind.—Mr. Anthony Wilson, of this town, says: "I was born with a delicate liver, which caused a disordered stomach, and my growth was affected by a case of malarial fever. I spent considerable money for treatments, but without any permanent relief. I commenced using Theodor's Black-Draught at the age of 10, and continued until I was grown, and it cured me, and I consider it a rapid cure in a case like mine. The people around here said I would never live to be a man, but Theodor's Black-Draught fooled them all."

I am now 27 years of age, and don't have to use Black-Draught only during the change of seasons, to tone up my system. As for my liver trouble, it is gone for good. I have made many new friends for Theodor's Black-Draught, for it has merit to recommend it. Theodor's Black-Draught has been the standard household remedy for disorders of the liver, stomach and bowels for over 75 years. You run no risk in trying it for your troubles. Get a package of Black-Draught today. Your dealer sells it. Costs only one cent a dose. [JB-4]
